

FIGHT FOR REPRODUCTIVE FREEDOM!

June 2024 | Social Media Toolkit

OVERVIEW:

The Iowa Supreme Court just ruled in favor of Gov. Reynolds and the Republican-controlled legislature's six-week abortion ban. Now, we must fight back. Iowans overwhelmingly support the right to access abortion and we will be holding MAGA Republicans accountable for restricting our freedom.

MESSAGING:

Iowans support each other and our right to make personal decisions. We know politicians should not interfere with our personal lives, our families and our right to access abortion. But now, extreme MAGA Justices who stand with Governor Reynolds approved her six-week abortion ban, before many even know they are pregnant. They are using everything they have to attack our freedoms. They won't stop with this court ruling. They want a total ban on abortion, no exceptions. As supporters of abortion access, we are the majority and we aren't going anywhere. It will take all of us in this fight to secure the freedom to be in charge of our bodies and safely care for ourselves, our families, and our communities.
